## EQUINE FEED TO SUIT EVERY TYPE OF HORSE

**THE STOCKFEED AND ANIMAL NUTRITION SPECIALISTS** - Thompson & Redwood (T&R) is a stockfeed manufacturer in Perth, centrally situated to Western Australia's grain regions. Our Upper Swan stockfeed plant has been operating since 1985 and produces over 90 different product lines for the Australian and export animal industries. These include steam rolled grains, gristed and whole grains, mueslis and pelletised products, as well as an extensive range of birdseed mixes. With 30 staff, two grain storages in the Wheatbelt and three mills across WA, we're able to yield over 50,000 tonnes of grain and seed each year.

**A business built on farming and family** - Owned and run by families with farming and agriculture backgrounds, T&R is driven by relationships – with the farmers who supply our grain and with the customers who buy our stockfeed. When you have staff who have been with the company since commencement and contracts that span decades you know you're in business for the right reasons. The current owners are old friends and business partners who genuinely believe that giving back to the community is the best gauge of commercial success.

**The health of your animals is our priority** - We understand that the health and performance of your animals is your priority – it's ours too. All T&R products are developed by qualified nutritionists to meet the dietary requirements of the equine, livestock and specialty animal industries. Over the years, we've worked hand-in-hand with both commercial and domestic customers and our veterinary team to develop recipes formulated to industry specifications. We test all new products on our animals to feel confident yours will love them too.

**Feed made to order – healthy, natural and fresh** - Being based in Western Australia means we have access to one of the most reliable sources of quality, low-priced grain in the world. All the raw materials we use are grown to contract and tested prior to manufacturing to meet our strict standards. In addition, our orders are completely made to order, with nothing stockpiled on site to ensure freshness. This follows through to our weekly delivery schedule which ensures our stockists and consumers are often getting feed that was raw grain only days earlier. T&R products are renowned for their consistent quality and freshness, being preferred by the fussiest of consumers.

**Technologically and quality controlled** - Our manufacturing process has been developed to provide high quality, fresh and consistent products. Being dedicated to animal nutrition, we use technology as a means to both develop and monitor our product quality, with the end result being an excellent nutritional solution for your animal. Our manufacturing processes are compliant with HACCP (Hazard Analysis Critical Control Point) and FEEDSAFE quality assurance programs. We are also the only Australian company accredited with the BETA NOPS Code, demonstrating that we conform to best practice in minimising the risk of contamination by naturally occurring prohibited substances in equine feeds.

**Exported to 14 countries around the world** - As well as selling our products nationally, we manufacture and ship to 14 countries across Asia and the Middle East. From royalty to the military to racing, our export clients trust T&R to deliver the same healthy, natural and fresh stockfeed that our Australian clients covet. An influential exporter within the global market, T&R supplies stockfeed to dairy, beef, equine, poultry, camel and goat farmers around the world.
